Cognyte uses cookies, flash cookies, pixel tags, mobile device IDs and similar files or technologies (collectively “**Cookie(s)**”) to automatically store information about your computer, device and site usage, to improve their performance and enhance our visitors (“**you**”, or “**your**”) user experience, when you visit any of our websites, including [www.cognyte.com](http://www.cognyte.com) (together with its sub-domains, Content, Marks and services, the “**Site**”)

On your first visit to the Cognyte Site you will be presented with a cookie preference window which will obtain your cookie preferences, including any consent you provide to certain non-essential cookies. Even if you approve our usage of cookies, you will always have the right to withdraw your consent at any time you choose. If you do not accept the use of these cookies in this way you should set your browser setting accordingly. If you do, please be aware this may impact your user experience while using our Site. For your comfort you can find below links to popular browsers websites who provide information on how to adjust the cookies settings. Be advised that some of the cookies may not be disabled as they are essential to the function of our Site.

## 1. What are cookies?

A cookie is a simple text file containing small amounts of information which is downloaded to your computer or mobile device (such as mobile phone, laptop, or tablet) by a website’s server when you visit our Site, and only that server will be able to retrieve or read the contents of that cookie. Cookies can be sent to the originating website on each subsequent visit, or to another website that recognizes that cookie. Each cookie is unique to your web browser. Cookies are widely used to make websites work, or to work more efficiently, as well as to provide information to the owners of the sites. It will contain some anonymous information, such as a unique identifier and the site name and some digits and numbers. Cookies allow us to enhance your experience when using our Site by recognizing you, so we remember useful information such as what language you prefer, the location you are in, and your preferences for browsing our Site. Cookies also help us understand how you use our Site, so we can better serve you.

## 2. What types of cookies do we use?

### 2.1 First-Party Cookies

First-party cookies are set by the website you are visiting, and they can only be read by that site.

### 2.2 Third-Party Cookies

Third-party cookies are set by a different organization than the owner of the website you are visiting. For example, the website might use a third-party analytics company that sets its own cookie to perform this service (e.g., Google). The website you are visiting may also contain content embedded from a third-party site, and these sites may set their own cookies and elements that set cookies on behalf of third party (e.g., a "like" button from Facebook or a "tweet" button from Twitter).

More significantly, a website might use a third-party advertising network to deliver targeted advertising on their website. These may also have the capability to track your browsing across different sites.

We also use the services of reputable third parties to provide us with data collection, reporting, ad response measurement, and site analytics, as well as to assist with delivery of relevant marketing messages and advertisements. These third-party cookies may view, edit, or set their own cookies. We, our third-party service providers, advertisers, advertising networks and platforms, agencies, and/or partners may also place web beacons for these third parties, as applicable. The use of these technologies by these third parties is subject to their own privacy policies and is not covered by this privacy statement.

Cookies can remain on your computer or mobile device for different periods of time. Some cookies are 'session cookies', meaning they exist only temporarily during a browsing session and are deleted from the user's device when the browser is closed. Other cookies are 'persistent cookies', meaning they remain in your computer and are not deleted when the browser is closed. Persistent cookies are used where we need to know who you are for more than one browsing session. For example, we use this type of cookie to store your preferences so that they are remembered for the next visit. You can delete a persistent cookie by selecting the delete options in your browsers.

We may also use web beacons or other similar Cookie technologies. When a visitor accesses our Site, a non-identifiable notice of that visit is generated which may be processed by us or by third parties. These web beacons usually work in conjunction with Cookies. If you do not want your Cookie information to be associated with your visits to these pages, you can set your browser to turn off Cookie as described below. If you turn off Cookies, web beacon and other technologies will still detect your visits to our Site, however they will not be associated with information otherwise stored in Cookies.

### 3. How do we use cookies?

The table below summarizes how we use cookies, to assist you in customizing your cookie preferences.

Purpose	What do they do?	Do these cookies collect my personal data/identify me?	Duration
Necessary	These cookies are necessary for the website to function and cannot be switched off in our systems. They are usually only set-in response to actions made by you which amount to a request for services, such as setting your privacy preferences, logging in or filling in forms. You can set your browser to block or alert you about these cookies, but some parts of the Site will not work. These cookies do not store any personally identifiable information.	These cookies do not identify you as an individual.	We use both session cookies and persistent. cookies are kept for a maximum duration of up to 12 months, in accordance with applicable regulation.
Performance/ Analytical	These cookies allow us to count visits and traffic sources so we can measure and improve the performance of our Site, and provide a better user experience. They help us to know which pages are the most and least popular and see how visitors move around the site. All information these cookies collect is aggregated and therefore anonymous. If you do not allow these cookies we will not know when you have visited our Site and will not be able to monitor its performance	These cookies do not identify you as an individual. All data is collected and aggregated anonymously.	We use both session cookies and persistent. cookies are kept for a maximum duration of up to 24 months, in accordance with applicable regulation.
Functionality	These cookies enable the website to provide enhanced functionality and personalization. They may be set by us or by third party providers whose services we have added to our pages. If you do not allow these cookies, then some or all of these services may not function properly.	The information these cookies collect may include personally identifiable information that you have disclosed or entered, such as your username or contact information. We shall always be transparent with you about what information we collect, what we do with it, and with whom we share it. If you do not accept these cookies, it may affect the performance and functionality of the Site and may restrict access to content on the Site.	We use both session cookies and persistent. cookies are kept for a maximum duration of up to 13 months, in accordance with applicable regulation.

Targeting/advertising	These cookies may be set through our Site by our advertising partners. Those companies may use them to build a profile of your interests and show you relevant adverts on other sites. They do not store directly personal information but are based on uniquely identifying your browser and internet device. If you do not allow these cookies, you will experience less targeted advertising	They do not store directly personal information but are based on uniquely identifying your browser and internet device. If you do not allow these cookies, you will experience less targeted advertising.	We use both session cookies and persistent. cookies are kept for a maximum duration of up to 18 months, in accordance with applicable regulation.

#### 4. How can you block, delete, or otherwise manage cookies?

When you first visit our Site, you will be asked for your consent for us to use cookies with a cookie preference window. You can use it to see a list of the categories of cookies used and to choose whether or not to consent to each of these.

However, if you prefer to reject the cookies, you can do this by using the cookie preference window or by changing your browser's settings. It is possible to block some or all cookies, or even to delete cookies that have already been set, but you need to be aware that you might lose some functions of the Site.

The following links below provide information on how to adjust the cookies settings on some popular browsers:
